

THANK YOU !

With more than 3,750 registered, the European Energy Transition Conference has just achieved a new attendance record.

The entire Bordeaux Métropole team would like to thank all the partners, speakers and participants who contributed to this fresh success.

The co-organizers represented by Alain Juppé for Bordeaux Métropole, Patrice Vergriete for the Dunkirk Urban Community and Bruno Lechevin for ADEME congratulate themselves on the richness of the exchanges and the debates which made 2017 such a vintage year for the Conference.

In 2018, Greater Geneva, a Franco-Swiss cross-border region committed to energy transition will have the honour and pleasure of organizing the next edition.
